

H4U

For production requirements that need high flexibility, Borghi offers the H4U Handle Assembly machine. The H4U is a machine with very fast retooling (change-over speed) that requires limited operator supervision.

The H4U is dedicated to small batches without giving up fully automatic production.

- ✓ Wide Production Range
- ✓ Small-Medium Production Rate
- ✓ Automatic Loading of Raw Materials
- ✓ Plug and Play installation
- ✓ Remote Assistance Module

HANDLE INFO

O.D. Min.(mm)	17
O.D. Max.(mm)	25.4
Length Min. (mm)	400
Length Max. (mm)	1500
Handle Materials	Aluminium, Wood, Steel

Production Rate (Max Pcs./Hour)	1400
Installed Power (kW)	3
Dimensions (meters)	2x3.5

OPTIONAL

Industry 4.0 Software
Induction Welding Station
Labelling Station
Laser Marking
Bagging Unit

ASSEMBLY MATERIALS

Cap
Thread
Screw (Optional)
Nail/Staple
